

Dedicated Tooling

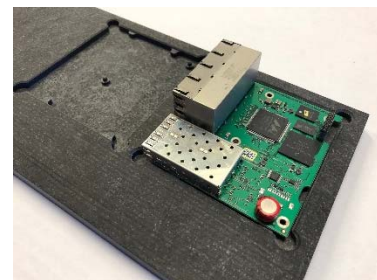

Product Overview

Scanditron's stencil team manufactures tooling dedicated for your PCB or PCB "family" - a simple, reliable support system which ensures optimal printing results. The tooling is compatible with DEK and EKRA screen printers

Benefits for you

- Optimal printing results with high repeatability
- Low cost – same price for single or double-sided PCBs
- Easy to order together with our laser-cut stencils, or separately
- Made of lightweight ESD material for easy handling
- The aluminium support legs are a one-time order and will fit all standard Scanditron tooling plates
- Simply replace the top tooling plate!

Part number	Description
110900	Tooling Plate for DEK/ASM, separate
110905	Tooling Plate for DEK/ASM, package
110902	Aluminium support leg, DEK/ASM – 2 pcs needed
110901	Tooling Plate for EKRA, separate
110906	Tooling Plate for EKRA, package
110903	Aluminium support leg, EKRA – 2 pcs needed
