FANUC CRX SERIES

Two lightweight, compact models to choose from.

ULTIMATE RELIABILITY

- Smooth, modern design that is completely safe to work side-by-side with people
- Backed by FANUC's decades-long experience in the design and manufacture of robots with world-renowned reliability
- The same uncompromising quality standards that customers expect from FANUC products

QUICK SETUP

- Lightweight and compact design allows for easy integration into any work area or existing system
- Easy to install without the use of a crane or lifting equipment
- CRX uses FANUC's latest compact R-30iB Mini Plus Controller for even more space savings

EASY PROGRAMMING

- Easily program and teach points on your new CRX cobot using all-new lead-through programming features and new teach pendant user interface
- Easy to connect to 3rd party grippers
- FANUC intelligence ready: iRVision, iRPickTool, and more
